

AUSTRALIAN POOL SHOWCASE

COUNTRYWIDE POOLS & SPAS

Wodonga, Victoria

Design objective: To mold the multiacre backyard into a private courtyard area viewable from inside. The builders, who own the pool, wanted a formal look, so entertainment areas were a must.

Pool facts: The Roman design is complemented with an eight-person spa. The light green shell gives the look of tropical island water. The installer added the matching green tile line.

Materials: Sandstone-colored, pre-cast pavers cover the deck and provide coping around the pool.

Added features: A sheet waterfall spills out of a green-tiled, raised wall. Deck jets shoot from the four corners into the pool. Pergolas shelter the spa and separate dining area. The brick wall surrounding the courtyard, with arches throughout, match the house and reiterate the formal look. Other features include fiberoptic lighting, swim jets, water leveler, a pool cleaner and heater.
